

CAMPUS NUMÉRIQUE · QUICK START

FOR TRAINERS

One link, *one button.*

Click the link of your class, log in, and you are in the Studio. A big window asks you to start: click "Démarrer le direct". Nothing to prepare beforehand: slides, videos and documents can be added during the class.

1

Click your link

The link of your class, sent by 2IAE

2

Log in

E-mail or phone, then your password

3

Start

"Démarrer le direct" in the big window

4

Allow camera and mic

Click "Allow" if the browser asks

CONCEPTION ET DÉVELOPPEMENT

José Kouadio

Concepteur et développeur du campus

RÉALISÉ PAR

ADRESSE

campus.2iae.com

Groupe Écoles 2IAE International

Click your link, *then log in.*

1 Click the link of your class

Open it on a **computer**, in **Google Chrome** (or Edge). It looks like campus.2iae.com/live/... and takes you to the login page.

2 Log in

1. **1** Type your **e-mail** or your **phone number** (*E-mail, téléphone ou matricule*).
2. **2** Type the **password** you chose when you created your account.
3. **3** Click **Entrer dans mon campus**.

FORGOT YOUR PASSWORD?

- 4** Click **"Code oublié ?"** under the button and type your e-mail. You receive a link by e-mail (valid for one hour) to choose a new password. Then click the link of your class again.

That is all: after the login, you land **directly in the Studio** of your class.

The screenshot shows the login page for 'Akwaaba au campus'. The browser address bar shows 'campus.2iae.com/connexion'. The page has a header 'CAMPUS NUMÉRIQUE' and a logo 'Akwaaba au campus'. Below the logo, it says 'Connecte-toi avec ton e-mail, ton numéro de téléphone ou ton matricule, et ton code secret.' There is a button 'Nouveau ? Créer mon compte étudiant' with a right arrow. The main form has two input fields: 'E-mail, téléphone ou matricule' (containing 'your.email@example.com') and 'Mot de passe' (containing dots). Below these is a checkbox 'Téléphone partagé' with the text 'Me déconnecter en quittant le campus.' Below the checkbox is a large orange button 'Entrer dans mon campus'. At the bottom, there is a link 'Code oublié ?' and a link 'Besoin d'aide ?'. Numbered callouts 1 through 4 are placed over the form fields and the login button.

One button: *Démarrer le direct.*

3

Start the class

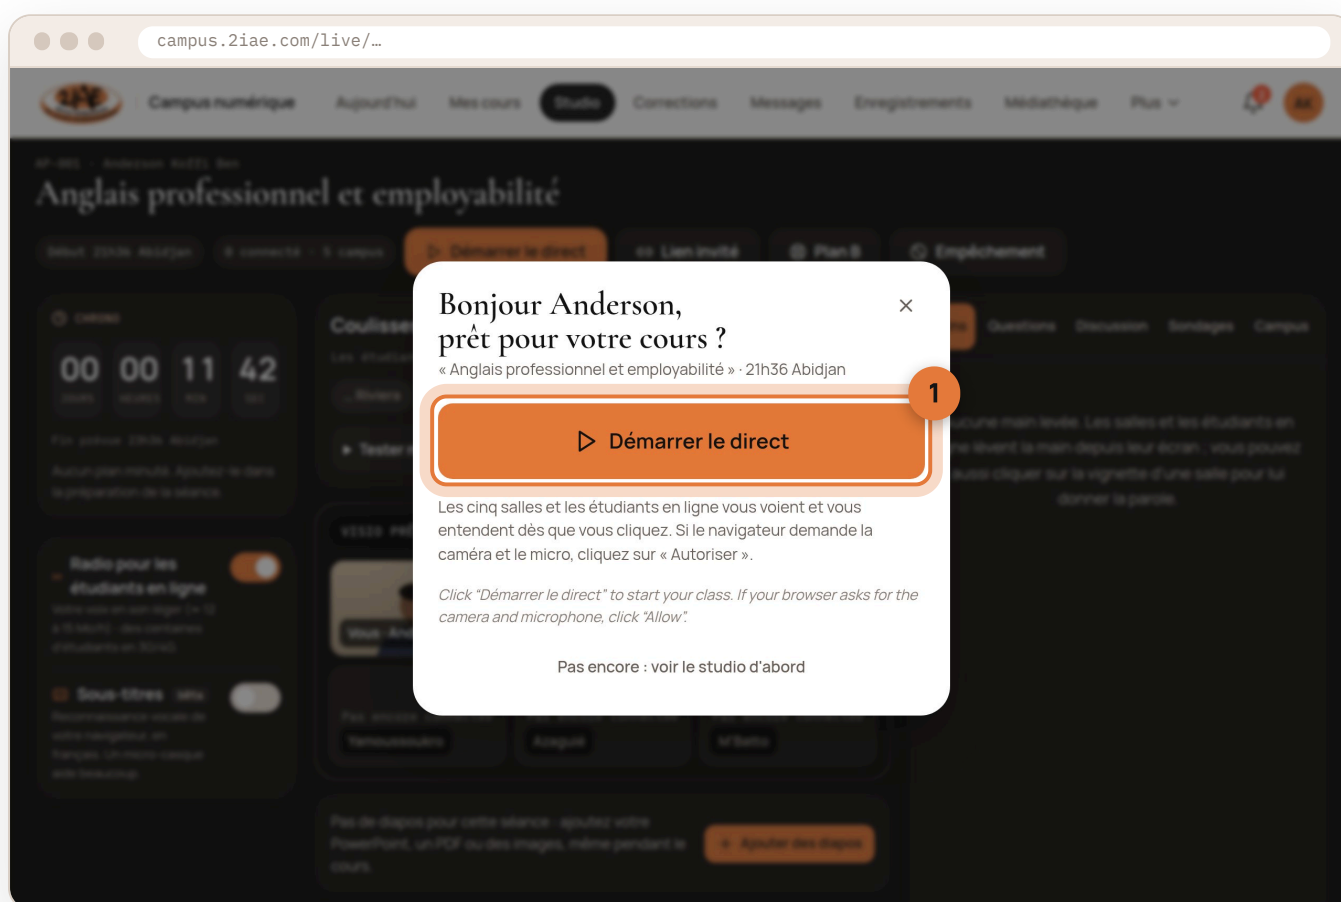

When you arrive in the Studio, a big window opens. Click

Démarrer le direct ¹: the five campus rooms and the students online see and hear you.

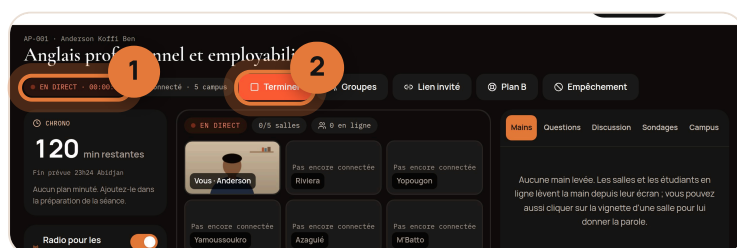

4

Allow camera and mic

If your browser asks to use your camera and microphone, click **“Allow”** (*Autoriser*). It only asks the first time.

The window appears from 45 minutes before your class. “Pas encore : voir le studio d'abord” closes it: the same orange button stays at the top of the Studio.

You are live

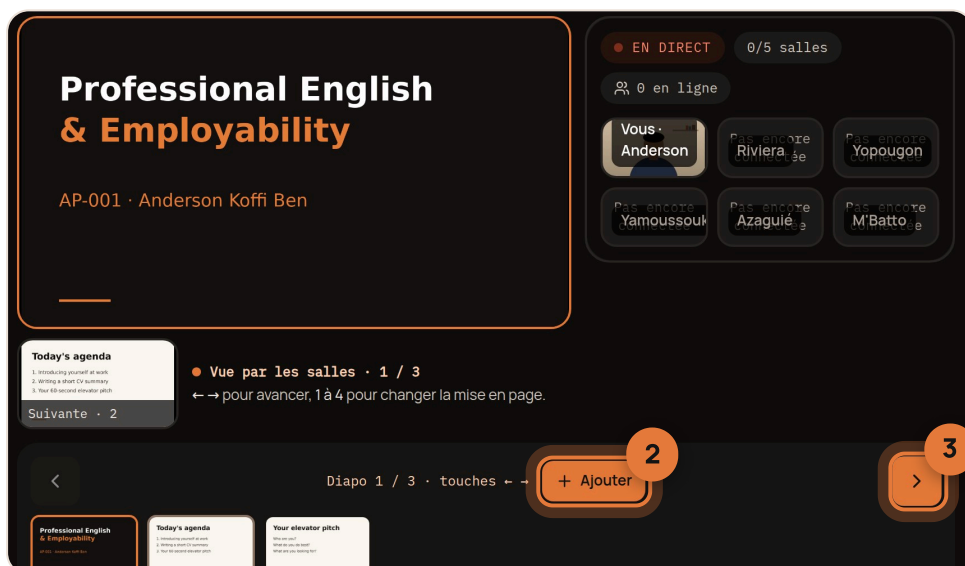

The red label **“EN DIRECT”** ¹ shows the time since the start. The red button becomes **“Terminer”** ²: use it only at the end. The class is recorded for the replay.

Slides, videos, documents: *add them live.*

Slides

Click **Ajouter des diapos** 1 and choose your **PowerPoint**, a **PDF** or images. A PowerPoint takes about a minute to convert. The slides then appear on the room screens and on the students' phones.

Change slides with the keyboard arrows ← → or the orange arrow 3. To add more slides later: **Ajouter** 2.

Videos and documents

Under the slides, in “Vidéos et documents”, click **Ajouter ou modifier** 4. Paste a **YouTube link** 5 and click **Ajouter** 6, or click “Ajouter des fichiers” 7 for a video, PDF or Word file from your computer.

Then click “Projeter” 8 to play a video on the big screens of the five rooms. Students can download the documents.

End the class *in two clicks*.

Click the red button **Terminer** at the top, then **“Terminer le direct”** ¹. The rooms and the students are told the class is over. The replay and a revision sheet are prepared automatically.

Clicked by mistake? Choose **“Continuer le cours”**.

If something goes wrong

WHAT HAPPENS	WHAT TO DO
No camera image	Check that “Caméra activée” and “Micro activé” are orange, under the video. If the browser blocked them, click the camera icon in the address bar, choose “Allow”, then reload the page (F5).
The page freezes	Reload the page (F5). The class continues and the rooms stay connected.
You closed the window	Click your link again. You find your class where you left it.
The students cannot hear you	Check that “Micro activé” is orange. A headset with a microphone gives much better sound.
Your connection is very weak	Turn off your camera (“Caméra coupée”): your voice and your slides keep going.

GOOD TO KNOW

Use a **computer** (not a phone) with Chrome or Edge, plugged in, with a stable connection. Click your link **10 minutes early**: you can check your camera before the students arrive. Questions, raised hands and the class chat are in the tabs on the right of the Studio, if you want to use them.
